SUMMARY

Software Engineer specializing in Front End Development with over 2 years of hands on experience in building responsive, user friendly web and mobile applications. Skilled in modern technologies including React.js library and Flutter framework, with growing expertise in Next.js. Proven ability to transform complex UI/UX designs into functional interfaces, integrate RESTful APIs handle all operations, and manage application state using context, Redux Toolkit and other state management libraries. Capable of working collaboratively with cross functional teams and independently leading projects from concept or scratch to deployment. Passionate about clean code, performance optimization, and delivering seamless user experiences across platforms.

EDUCATION

National Ribat University   **Khartoum, Sudan**

B.S. In Information Technology   **Oct 2022**

EXPERIENCE

Right For Advanced Businesses   **Khartoum, Sudan**

Front-End Developer   **Sep 2022 – Present**

➢ Developed multiple web applications using React.js and mobile applications using Flutter.

➢ Initiated and completed projects from scratch, covering full front-end architecture and integration.

➢ Transformed UI/UX designs into responsive, dynamic interfaces aligned with business goals and requires.

➢ Collaborated with backend developers and designers to define features, requirements, and ensure implementation as the requirements.

➢ Integrated RESTful APIs and implemented efficient state management using Redux Toolkit, context API (web), Provider and Bloc (Flutter).

➢ Participated in database schema design and contributed to full-stack and making decision during project planning.

➢ Diagnosed and resolved front-end bugs and performance issues to ensure high quality deliverables in web and mobile applications.

➢ Since October 2023, shifted focus primarily to mobile application development using Flutter, and also to build cross-platform app projects for example (Android ,iOS).

Freelancer   **Khartoum, Sudan**

Web Developer   **Feb 2021 – Sep 2022**

➢ Designed and developed full-stack websites using HTML, CSS, JavaScript, and pure PHP.

➢ Built end-to-end solutions including front-end interfaces and backend functionality without frameworks.

➢ Delivered customized websites for clients, optimizing layout, usability, and load speed.

➢ Maintained and updated existing websites based on client requirements and industry best practices.

SKILLS

Technical Skills:

- **Frontend:** HTML, CSS (Bootstrap, Tailwind, Material UI), JavaScript (React.js, Next.js), Flutter.
- **Backend:** Node.js (Express), RESTful APIs.
- **Database:** MySQL, MongoDB
- **StateManagement:** Redux, Redux Toolkit, RTKQ, Zustand, Context API, Provider, Bloc
- **Tools:** Git, GitHub, Postman
- **Programing Languages:** C++, JavaScript, Dart, PHP.
- Implement User Interface
- API Integration

Soft Skills:
- Analysis
- Problem Solving
- Project Management Tools
- Communication skills
- Working in a Team
- Fast Learner
- Fast Typing
- Design Thinking
